When was the last time you went to the doctor?

What was the matter with you?

I went to the doctor about 3 weeks ago. I was coughing and sneezing and I had a slight fever. The doctor said I had the flu and he gave me a prescription for an antibiotic. He told me to take one tablet every eight hour.

Now, I am in very good health again.

Last month, I had a terrible headache and I started vomiting. I went to the doctor and I found out I had a migraine – for the first time in my life. The doctor prescribed pain killers and I also had to get a short – it hurt a lot.

But, I started to feel better in a couple of days.

Now, it´s your turn to speak!

When was the last time you went to the doctor?

What was the matter with you?

What is your favorite color? Why?

What is your favorite color? Why?

Yellow is my favorite colour. Because it is associated with joy, happiness and energy . And I really love to wear yellow clothes: T- shirts , shirts, caps, sneakers...

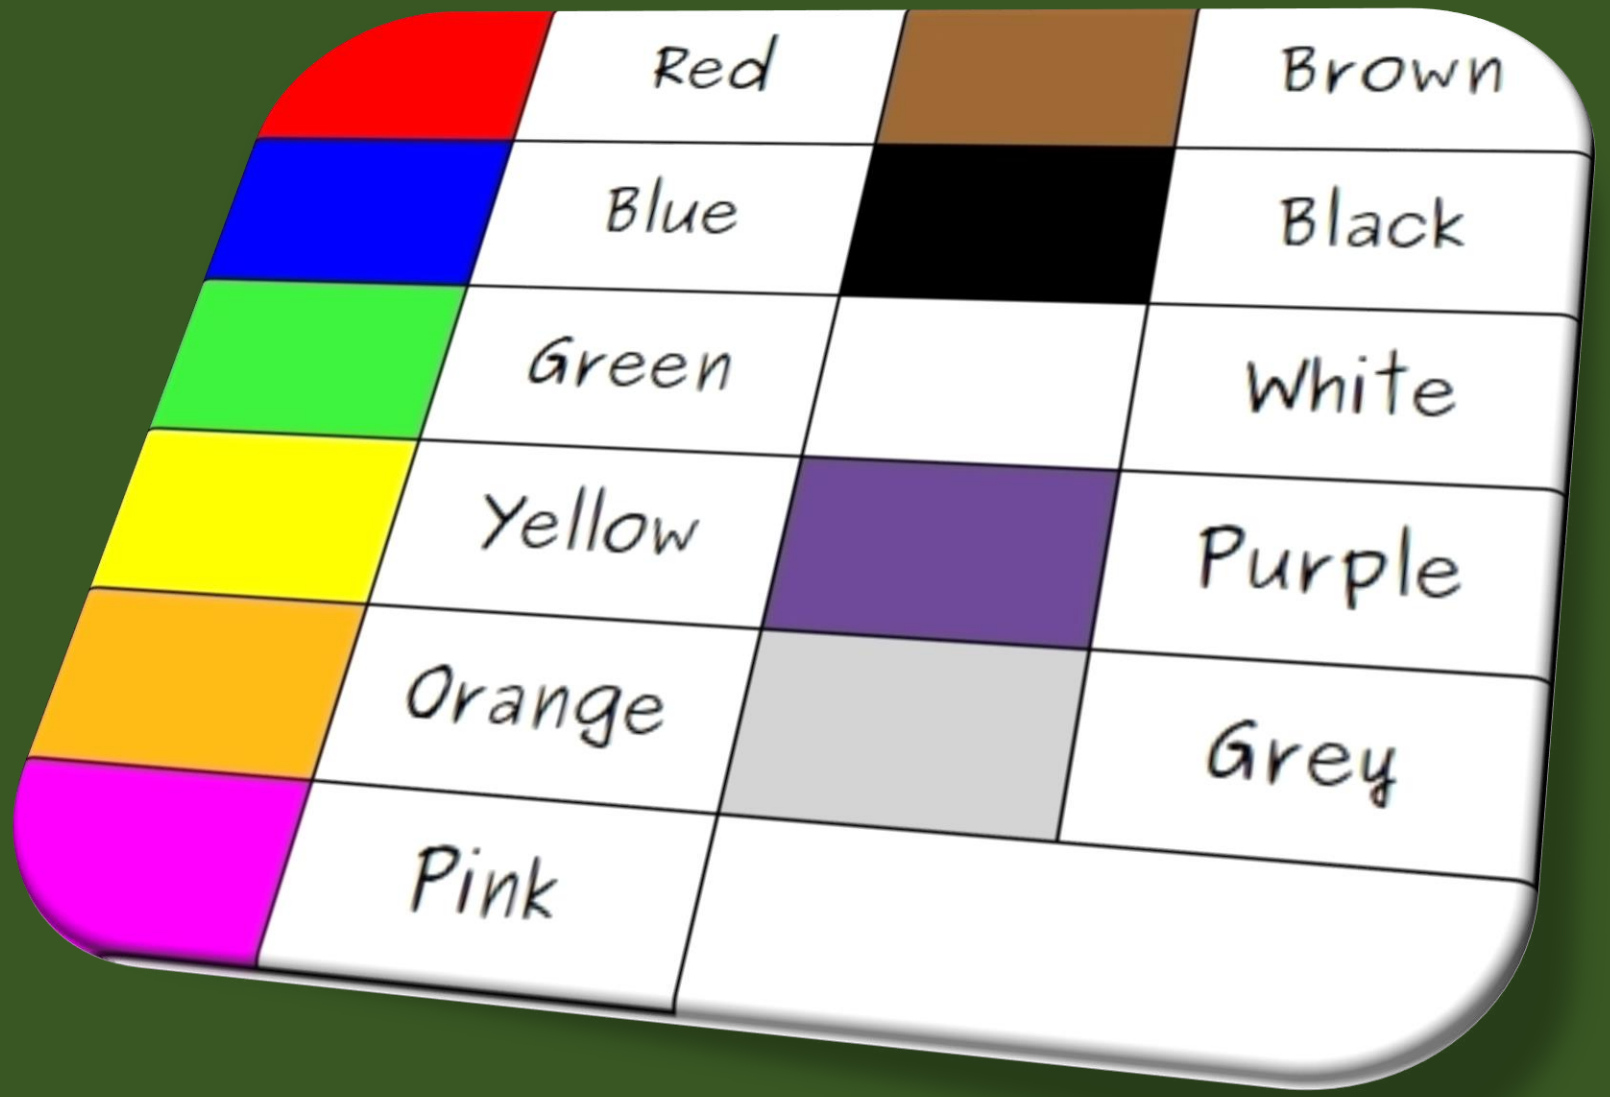

I love purple. It is the color of joy, the color of peace, and the color of creativity. It also symbolizes success.
I´m a lover of flowers and there are many purple flowers, like Lilly of the Nile, my fave.

I think my favorite color is blue. It is the color of the sea. I never forget my cruise to the Bahamas. The Bahamas sea is so blue. Blue, also, makes me feel calm and relaxed.

Your turn now:
What´s your favorite color?

Conversation Day#2

Book 2 - Lessons 6 through 10

What do you think is more important, love or money?

What do you think is more important, love or money?

Definitely, it´s love, for me. When you are in love, you are the happiest person in the world. Love makes our life complete. I wouldn´t be able to live without love. Love makes me strong.

I hate to say that, but I think **money is more important**. You can live a decade without love, but without money you wouldn´t be able to survive or lead a decent life.

Love and money are both very important. We need money to buy food, clothes, to rent a house or an apartment to live in, etc. But we need to love and feel loved. And a couple in love can make all the money they need.

Now, it´s your turn to speak!

What do you think is more important, love or money?

What have you done lately!

READING

I have worked too much lately, but I have found some time to relax and have some fun.

I´ve read books, watched series... and, I´ve done yoga before going to bed. It´s really relaxing!

On Saturday nights, I´ve gone out with my fiancé. We love to go dancing.

Plus, once a week, I´ve been taking self-defense classes.

Now, it´s your turn to speak!

What have you done lately?

What is your greatest strength?
And, what is greatest weakness?

My greatest **strength** is my ability to work well with people. I´ve always enjoyed working in a team.

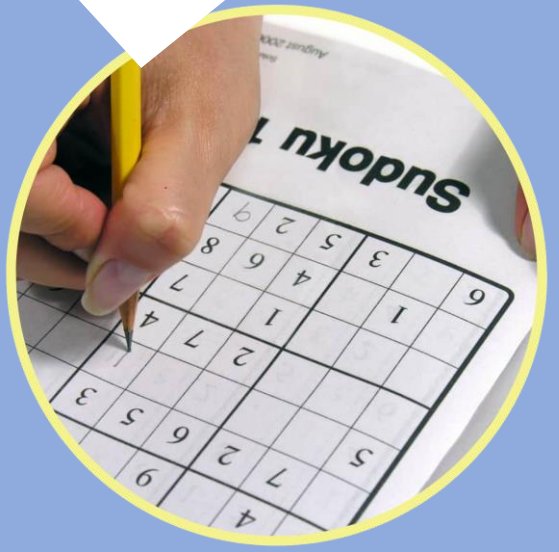

My problem-saving ability is my greatest **strength**. I can solve complex problems quickly and efficiently.

I think my greatest **weakness** is speaking during a meeting. I´m an introvert. I´ve been taking public speaking classes. I´m improving.

I have some difficulty with concentration. That´s my **weakness**. But, I´ve been playing sudoku to improve my focus. It helps.

Now, it´s your turn to speak!

What is your greatest strength?
And, what is greatest weakness?

Are you in favor or against divorce?

I´m totally in favor of divorce. Relationship can fail, so why continue living together? It also gives some women security and protection against domestic violence.

I´m against divorce. It often has a negative effect on the couple´s and their children´s emotional health. Marriage counseling helps couples resolve conflicts and improve their relationship.

And you, what´s your opinion?

What do you enjoy doing in your free time?

READING

There are many things I like to do in my spare time. I usually enjoy lying on a couch, reading a good book, or watching a good movie.

But, I also like outdoors activities, like biking, camping, floating down a river... and, in the wintertime, if it´s snowing, I like to go skiing.

I also enjoy socializing - going out for a cup of coffee or for some snack, or meeting my friends.

Now, it´s your turn to speak!

What do you enjoy doing in your free time?

Things that thrill you.

Diving with sharks is one of the most thrilling activities I´ve already done. Being face-to-face with sharks is simply amazing.

Hot air ballooning is a thrilling adventure. Everyone should try it! Seeing the world from above is breathtaking.

A typical day at my job

READING

I´m an app driver.

Every day, I turn on the app on my phone, and wait for people to need a ride.

I pick passengers up, and drive them to their destination using the directions from the app.

I drive safely and follow the traffic rules.

Some passengers like to chat, and others prefer to stay quiet.

At the end of the day, I check how much money I've made, and go home to rest.

One thing I like about my job is I meet new people every day.

LET´S TALK

2) What is one thing you like about your job?
3) What is one thing you dislike about your job?
4) What would be your dream job?

Now, your turn!

Everyone is a little superstitious, right?

Others believe a good lucky charm, like a four-leaf clover, a special coin, or a horseshoe can bring them good luck. That´s being superstitious.

Before I die, I want to travel to Finland to see the northern lights, or aurora borealis. These beautiful lights appear in shades of green, pink, purple, and blue.

Before I die, I want to travel to France. I want to see the Mona Lisa at the Louvre in Paris... and maybe climb the Eiffel Tower on foot.

And you, what do you hope to achieve before you die?

ASK YOUR FRIEND...

Now, your turn to speak!

Can you tell a dream or a nightmare that you remember?

If you could go back in time, what period of your life would you like to go back to? Why?

I wish I could go back to the 80´s. I was twenty years old then. We had no cell phone, no internet, and life had a slower pace. We enjoyed spending time talking and having fun with our friends.

I wish I could go back to when my grandma was still alive. She was my protector…She always told me what consequences my decisions could have. She was such an inspiration to me.

Thirty years ago, a friend invited me to join him in a new business. I just would have to invest $1,000. I didn´t. So, he started the business by himself. Today, he is a multi-millionaire. I wish I could go back in time and join him in the business.
