Conversation Day #1

Book 3 - Lessons 1 through 5

Have you been saving up for a rainy day? If not, what should you do? If you have, what for?

I always save my money for a rainy day. It helps in emergencies. One dream of mine is having my own car. For this reason, I´m saving up half of my salary every month. By the end of this year, I´ll be driving my dream car.

I have to start saving up for a rainy day. That´s why I am now planning, and monitoring my expenses. I´ve even started using more public transport because it´s cheaper than using my car (gas prices are rising again). I´m also cutting down on non-essential expenses, like eating out or ordering food online.

Now, it´s your turn to speak!

Have you been saving up for a rainy day? If not, what should you do? If you have, what for?

What would you do if you won the lottery?

I would hire a financial advisor to make sure I am making intelligent decisions with my money. I would resign from my job, and consider taking a gap year. Of course, I´d find the best ways to multiply my money.

If I won the lottery, the first thing I´d probably do is... faint! I cannot even imagine it... Later, I would ask my wife to pack up our bags and fly to Paris. There, by the Eiffel Tower, we would dine at a fancy restaurant, and start planning our new life.

First, I would pay off my debts. Then, I would invest in a new business and become my own boss. I´d buy a fancy car, and a mansion.
I´d also donate to charity, and, of course, help my close friends and family members.

Now, your turn to speak!

What would you do if you won the lottery?

What do you like to do for relaxation?

Adventure in the kitchen definitely relaxes me.
I am passionate about trying and cooking new recipes, especially food from different cuisines all over the world.

I I always find that practicing mindfulness meditation, and breathing exercises are the best way to relax fast, especially surrounded by the perfume of burning incense.

Strange as it seems, I love knitting! like the way it occupies my mind and makes me get relaxed.
I like to choose the pattern, the colors, and see my idea taking shape in my hands.
It’s incredibly calming.

Are we alone in the Universe?

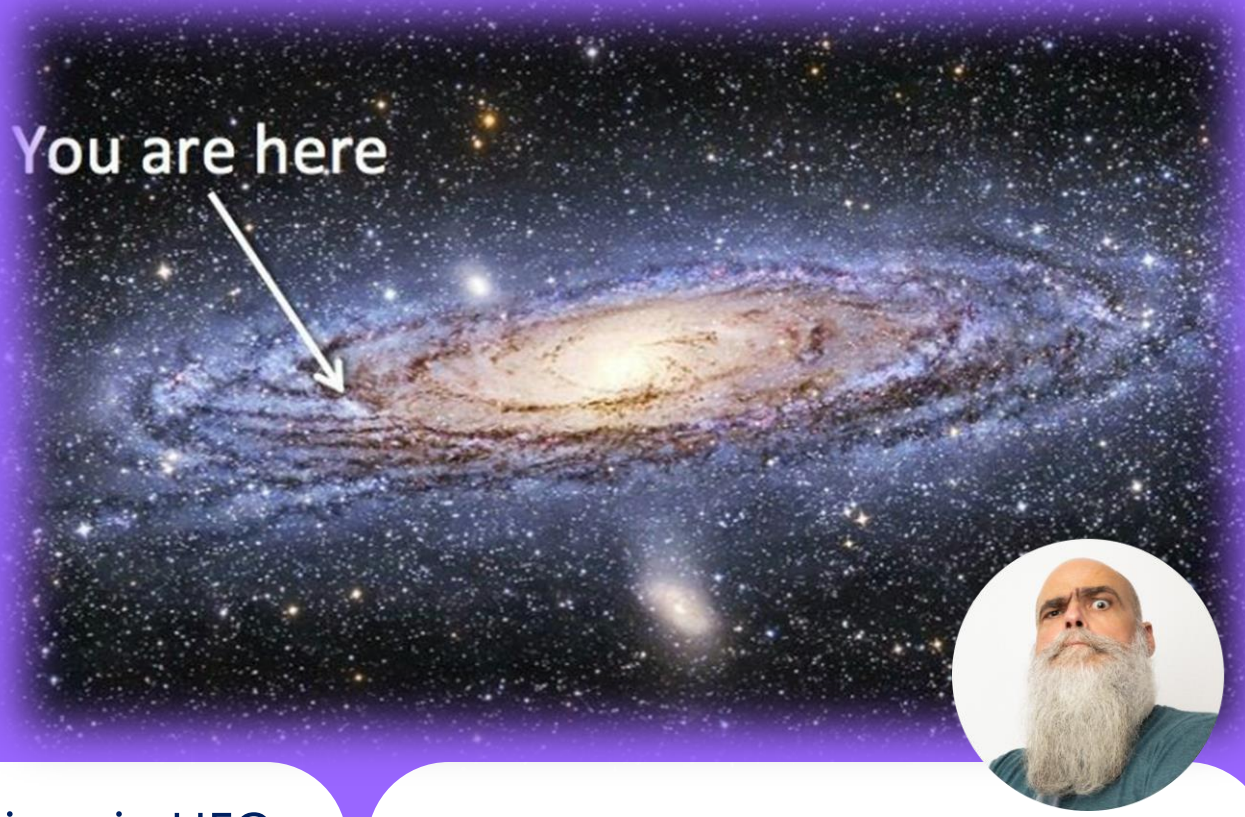

Are we alone in the universe?

The universe is vast and contains countless planets capable of supporting life. Although we still haven´t found evidence of extraterrestrial civilizations, they´re likely to exist. Or, maybe not.

I strongly believe in UFO and aliens. The number of photos, videos, reports, and reliable witnesses shows that UFO's unquestionably exist.

We don´t know if there is life on other planets in our galaxy, or even in the universe. There´s really no concrete evidence of life out of our planet. I have no doubt that we are alone!

What is the ideal vacation for you?

READING

An ideal vacation for me usually involves warm weather, a calm beach and no Wi-Fi. Being able to unplug and reset is usually the goal of my vacation.

Now, your turn!

What personality trait would you like to improve or develop? Why?

I am a little bit insecure, so, I would change this shy side of me and make myself **more confident.**
It causes so many problems to not be self confident.

I think I wouldn't change anything about my personality. I´d just try to improve myself each day. I´d continue trying to be **more patient, caring, tolerant, unselfish, and helpful**.

I´d like to increase **my willpower** to workout at least one hour a day. I know it's the least I could do for my body. This would keep my body healthy, my self-esteem up, and would improve my energy to do my daily duties.

Now, your turn to speak!

What personality trait would you like to improve or develop? Why?

Free food and coffee

About 56% of Americans claim to be happy at their job, but that number jumps to 67% for employees who are given free food and coffee as a benefit.
I am among those 67%! 😁

What would be the most important benefits for you in a company?

Job security

Promotion chances

Health plan

Higher salaries

Flexible hours

Retirement plan

Life insurance

Educational benefits

What is the latest news you listened to or read? Where did you hear or read the news?

READING

I saw on TV last night that, this year, Nasa is sending a spacecraft to a moon of Jupiter, called Europa, carrying a poem in a microchip. The poem is based on two water worlds - Earth, and Europa. Nasa says the poem will be like a message in a bottle.

Europa might have water under its icy surface. This is exciting because water is important for life. If there's water on Europa, there could be a chance it might support life.

The 2.6-billion-kilometer trip will take 6 years.

Music always inspires me. It brings me inner peace and helps me in dealing with the problems of my personal and professional life. As a result, I listen to it every day, both in the morning and before going to bed.
